

**Computational Physics / PHYS-UA 210 / Problem Set #5**  
**Due October 4, 2019**

You *must* label all axes of all plots, including giving the *units*!!

1. Exercise 5.3 in Newman. In addition, use the NumPy implementation of the error function `erfc` (which this is very close to) to check your answer.
2. Exercise 5.10 in Newman.
3. Exercise 5.12 in Newman.
