

Computational Physics / PHYS-UA 210 / Problem Set #9
Due November 1, 2019

You *must* label all axes of all plots, including giving the *units*!!

1. Exercise 6.13 in Newman. Note that the term “optical pyrometry” is not a term astronomers use, though it is one that engineers use related to devices that measure terrestrial temperatures optically.
2. Exercise 6.16 in Newman.
